PNG predictors

Both images must look the same. The left one has no predictor, the right one uses /Predictor 15, with a different PNG filter for each band of 50 rows. A decoding error shows as stripes or smears.

Reference: no predictor

PNG predictors

1: None

2: Sub

3: Up

4: Average

5: Paeth

Image: 256 x 250 pixels, RGB, 8 bits per component
